An authoritative history of psychology from the Thomistic point of view

HISTORY OF PSYCHOLOGY

By Rev. Robert E. Brennan, O.P.

Professor of Psychology, University of Montreal

The distinguished author of *Thomistic Psychology* and *General Psychology* relates, in this new text, the whole story of the study of human nature from the time of primitive man to modern times. He interprets the development of psychology as it might have been viewed by Aristotle and Thomas Aquinas, and incorporates the philosophical as well as the scientific background of psychology. *To be published in January.* $3.00 (*probable*).
